EXIT PNEUMATIC TUBE.

a Result of Sensational Disclosures House Votes Against It. WASHINGTON, April 26 .- The house

yesterday put its heel upon the pneumatic mail tube service, now in operation in New York, Boston and Philadelphia, and if its action stands the whole service will be crushed out. The postoffice committee had recommended an increase of the appropriation for this service. The proposed increase was attacked by the appropriations committee, under the leadership of Moody (Mass.) with such vigor and success that in the end the house voted-87 to 50-to strike the entire appropriation from the bill. Moody created a sensation by the manner in which he assailed the methods of the Pneumatic Tube company, and the direct charge that a former member of congress, who was a member of the appropriations committee, had been a holder of the stock and bonds of the company. He declined to disclose the gentleman's name. He added to the scandal by charging that a block of the stock had been sent as a New Year's gift to a near relative of another member of congress, but to the credit of the member, he said, the dishonoring gift had been returned to the sender by the next mail. Although the tube service was highly commended by other members, these revelations transformed the sentiment of the house, which several times voted for the tube service, into a decisive majority against continuation in any form. Tawney (Minn.) offered as an amendment a bill to reclassify railway mail clerks, but it went out on a point of order.

Senate Passes Agricultural Bill. WASHINGTON, April 26,-After a brief debate yesterday the senate agreed to the conference report on the Hawaiian civil government bill, the provisions relating to the right of franchises and imprisonment for debt having been amended to conform to the ideas of the senate. The agricultural appropriation bill was passed, carrying a little over \$3,000,000. The Alaskan civil government bill was under consideration for an hour, but no progress was made. Platt (N. Y.) moved into Quay's old seat. A joint resolution authorizing the exhibit of government relics at the New York printing exposition was adopted.

Peculiarities of Quail.

There are many odd and interesting things to be said of the quail, which is known throughout a large scope of the country as the partridge. One is that it has the power when badly frightened of withholding its scent. A covey, quickly flushed, will scatter and lie so close the best dog in the world will overrun them, making no sign of point until the bird flutters up right underfoot. Another is that it has the faculty of simulating death, if taken winged in hand, and of coming quickly to life the minute the grasp is relaxed in the neighborhood of good cover. Further, the birds have a sort of barometric

A woodsman marking the direction in which quail feed can almost certainly foretell the day's weather. A Peculiar Dutch Custom.

The four Sundays of November are observed as fete days in Holland. They are known by the curious names Review, Decision, Purchase and Possession, and all refer to matrimonial affairs, November in Holland being the month par excellence devoted to courtship and marriage, probably because the agricultural occupations of the year are over and possibly because the lords of creation from quite remote antiqulty have recognized the pleasantness of having wives to cook and cater for them during the long winter.

On Review Sunday everybody goes to church, and after service there is a church parade in every village, when the youths and maidens gaze upon each other, but forbear to speak.

On Decision Sunday each bachelor who is seeking a wife approaches the maiden of his choice with a ceremonious bow and from her manner of reoverflowed district in Rankin county sponding judges whether his advances are acceptable. Few things are so depressing and weakening as a constant cough. Few things are as discouraging as a cough that will not yield to treatment. It breaks in on the night's rest. It interferes alike with business and with pleasure. Above all, the persistent cough constantly sug-gests the thought of that dread dis-ease consumption with its lingering agony. Dr. Pierce's Golden Medical Discovery cures coughs when all other medicines fail, because it is more than a cough medicine. The

cough is but a symptom. "Discovery" makes new and pure blood, heals the lacerated tissues, and gives the body the needed strength to throw off disease. It cures the cough by curing the cause of the cough. People have suffered with bronchial affections for years, with obstinate, stubborn cough, and growing weakness. They have tried doctors and medicines in vain. At last they have been induced to try Dr. Pierce's Golden Medical Discovery, with the general result experienced by all who put this wonderful medicine to the test-help at once, and a speedy cure.

For coughs, bronchial affections, weak lungs, spitting of blood, and other diseases of the organs of respiration, "Golden Medical Discovery" is practically a specific. It always helps; it almost always cures. There is

no alcohol, neither opium, cocaine, nor other narcotic in the "Discovery."

Do not allow any dealer to impose on you by selling you a substitute for Dr. Pierce's medicines. The only motive for substitution is an excessive profit for the dealer. You pay that extra profit if you accept a substitute.

"I had a terrible cough something over a year ago and could find nothing to stop it, or even to do me a particle of good," writes Mr. J. M. Farr, of Cameron, Screven Co., Ga.
